PROFESSIONAL EXPERIENCE

Founder and Lead Developer — 2025 – Present

TriBridge Services – Nairobi (Kenya)

- Founded and run a web building and French–English translation business for businesses and individuals.
- Design and build portfolios, business websites, management systems and mobile and web apps.
- Build secure back ends with user accounts, databases and file storage using Supabase.
- Set up email workflows with Brevo and AI features with Hugging Face and Gemini.
- Translate documents, websites and messages between French and English.

KEY CAPABILITIES

- **Business systems:** ERP-style management software with secure logins, database design and cloud data.
- **Mobile apps:** cross-platform apps built with Expo and React Native and tested on real devices with Expo Go.
- **Installable apps:** offline-first progressive web apps packaged as Android apps with Capacitor and automated GitHub builds.
- **Accounts and cloud backup:** email and password sign-in with user data saved safely in the cloud.
- **Media features:** audio recording and streaming, and screen recording inside apps.
- **AI assistants:** chat assistants and models built with Gemini and Hugging Face.
- **Websites:** multi-page business sites with SEO, dark and bright themes, and WhatsApp and email request forms.
- **Content:** gimbal-stabilised video and photo capture and editing.
